

****ATS Report****

****ATS Score:** 82/100**

****Missing Skills:****

- * Agile Methodologies
- * Cloud Security (e.g., AWS IAM, CloudFormation)
- * Container Orchestration (e.g., Swarm, Mesos)
- * Full-Stack Development (e.g., JavaScript, React)
- * Machine Learning/AI
- * Network Security
- * Python Programming
- * Security Testing (e.g., OWASP)

****Formatting:****

- * The resume is well-formatted, but some sections (e.g., Technical Skills, Projects & Hands-on Experience) could be reorganized for better readability.
- * Consider using bullet points consistently throughout the resume.
- * Some sections (e.g., Education, Strengths) are not formatted as sections.

****Improvements:****

1. ****Technical Skills:**** Consider grouping similar skills together (e.g., all cloud-related skills under a single heading).
2. ****Projects & Hands-on Experience:**** Use a consistent format for each project, including a clear description of the technology used and the benefits achieved.
3. ****Education:**** Consider adding relevant coursework or academic projects to demonstrate technical skills.
4. ****Strengths:**** Use a more descriptive title (e.g., "Key Strengths") and consider adding specific examples to support each strength.

****Final Suggestions:****

1. ****Use a clear and concise format:**** Use bullet points, clear headings, and white space to make the resume easy to scan.
2. ****Tailor your resume to the job:**** Customize your resume for each job application, highlighting relevant skills and experiences.
3. ****Use keywords:**** Incorporate relevant keywords from the job posting into your resume, especially in your Technical Skills section.
4. ****Proofread:**** Carefully proofread your resume for spelling, grammar, and formatting errors.

****Revised Resume:****

[Your Name]

MADDULA SIDDARDHA

Hyderabad, Ameerpet | +91- 9177339503 | LinkedIn: <https://linkedin.com/in/siddardham/>

Gmail: siddardha9988@gmail.com | GitHub: github.com/Siddu-009

****Professional Summary:****

Highly motivated DevOps Engineer with hands-on experience in AWS cloud, CI/CD automation, Docker, Kubernetes, Terraform, Ansible, and Linux administration. Skilled in designing scalable deployment pipelines, infrastructure automation, and monitoring solutions using modern DevOps practices.

****Technical Skills:****

- * Cloud Platform: AWS (EC2, S3, IAM, VPC, RDS, Route 53, EKS, CloudWatch)
- * Containers & Orchestration: Docker, Kubernetes (EKS), Helm
- * Infrastructure as Code: Terraform, Ansible
- * Monitoring & Observability: Prometheus, Grafana, AWS CloudWatch
- * Web & Databases: Apache, Nginx, Tomcat, MySQL (Amazon RDS)
- * Operating Systems & Scripting: Linux (Ubuntu, RHEL), Bash Shell Scripting

****Projects & Hands-on Experience:****

*** **CI/CD Pipeline for E-commerce Application****

- + Designed and implemented end-to-end CI/CD pipelines using Jenkins, reducing deployment time by 40%.
- + Automated AWS infrastructure provisioning (VPC, EC2 Linux servers, S3, RDS, IAM) using Terraform.
- + Deployed applications on Linux servers using Ansible with Tomcat and Nginx configuration.

*** **Containerized Application Deployment with Kubernetes****

- + Automated AWS EKS cluster creation using Terraform and managed Linux-based container workloads.
- + Containerized microservices using Docker to ensure consistent deployment across environments and pushed them to a private Docker registry.

****Education:****

- * Bachelor of Technology (B.Tech) – 8.03 CGPA, Sir C R Reddy College of Engineering (2025)

****Key Strengths:****

- * Strong problem-solving and analytical thinking
- * Effective communication and collaboration
- * Quick learner and adaptable to new technologies
- * Good time management and task prioritization
