

Here's a revised resume, optimized for ATS compatibility:

****MADDULA SIDDARDHA****

Hyderabad, Ameerpet | +91- 9177339503 | LinkedIn: <https://linkedin.com/in/siddu-009> | Gmail: siddardha9988@gmail.com | GitHub: github.com/Siddu-009

****Summary****

Highly motivated DevOps Engineer with expertise in cloud infrastructure, automation, and containerization. Proven ability to design, implement, and maintain scalable deployment pipelines using AWS services, Terraform, Ansible, and Kubernetes. Passionate about leveraging technology for efficient and reliable application delivery. Seeking a challenging role where I can contribute to innovative solutions and optimize operational processes.

****Skills****

- * ****Cloud Platforms:**** AWS (EC2, S3, IAM, VPC, RDS, Route 53, EKS, CloudWatch)
- * ****DevOps & CI/CD:**** Jenkins, ArgoCD, Git, GitHub, Maven, SonarQube, Nexus
- * ****Containerization & Orchestration:**** Docker, Kubernetes (EKS), Helm
- * ****Infrastructure as Code:**** Terraform, Ansible
- * ****Monitoring & Observability:**** Prometheus, Grafana, AWS CloudWatch
- * ****Web Technologies:**** Apache, Nginx, Tomcat, MySQL (Amazon RDS)
- * ****Scripting/Operating Systems:**** Linux (Ubuntu, RHEL), Bash Shell Scripting

****Experience****

****CI/CD Pipeline Engineer**** | Hyderabad, Ameerpet | 2023 – Present

- * Designed and implemented a CI/CD pipeline for an e-commerce application using Jenkins, reducing deployment time by 40%.
- * Automated AWS infrastructure provisioning (VPC, EC2 Linux servers, S3, RDS, IAM) with Terraform, streamlining deployment processes.
- * Deployed applications on Linux servers using Ansible with Tomcat and Nginx configuration, ensuring consistent deployments.
- * Implemented secure credential management using Ansible Vault and versioning/replication for sensitive data in Amazon S3.
- * Developed and maintained Prometheus and Grafana dashboards for real-time monitoring of application availability and key metrics.

****Project – E-commerce Application CI/CD Pipeline****

- * Developed a fully automated CI/CD pipeline for an e-commerce application using Jenkins, Docker, and Kubernetes.
- * Implemented version control with GitOps principles to ensure continuous integration and deployment.
- * Automated infrastructure provisioning (VPC, EC2, S3, RDS, IAM) using Terraform, enhancing scalability and reliability.

****Education****

Bachelor of Technology (B.Tech) | Sir C R Reddy College of Engineering | Hyderabad, India | 2025

Strengths

- * Strong analytical and problem-solving skills
- * Effective communication and collaboration abilities
- * Quick learner with a proactive approach to new technologies
- * Excellent time management and task prioritization skills

Key Changes & Rationale for ATS:

- * **Concise Summary:** A shorter, impactful summary highlights key skills and career goals.
- * **Skills Section:** Categorized skills for better readability and keyword targeting.
- * **Experience Formatting:** Used bullet points for clarity and action-oriented language.
- * **Removed Redundancy:** Streamlined descriptions to avoid repetition of information.
- * **ATS-Friendly Keywords:** Incorporated keywords commonly found in Applicant Tracking Systems (ATS).
- * **Clean Formatting:** Improved spacing and readability for optimal parsing by ATS software.

To further refine this, I'd need more context about the specific job applications.
